UK-China Life Science Tech Transfer Event

Partner with Chinese companies to enter the Chinese life science market - Invitation to participate

In response to a growing interest from Chinese and UK companies, the UK Department for International Trade is organising a series of Chinese investment and tech transfer seminars. These 1 day events are offered in collaboration with regional partners

- Lancaster University
- Cocoon Networks, and London & Partners
- The Welsh Government

For UK companies, these events provide the opportunity to explore tech-transfer to support business growth and export plans in the Chinese life sciences market. The events involve a delegation of prospective partner companies & investors attending from China. Therefore seminar days will offer UK medical technology companies the chance to develop leads for potential partners, pitch for investment, free networking and one-to-one business matching with the Chinese companies/investors.

- 31st October, Scotland
- 1st November, Lancaster (Northern Powerhouse focused)
- 2nd November, London (South-East England focus)
- 3rd November, London (Welsh company focused)

Please register your interest as soon as possible to avoid disappointment. Further details on the programme, venues and participating Chinese companies can be provided upon enquiry.
