

LIFE SCIENCES CASE STUDY

ADVANCED BACTERIAL SCIENCES

WHO ARE ADVANCED BACTERIAL SCIENCES?

ABS is at the **forefront of environmental innovation**, harnessing the natural power of bacteria and utilising 100% biodegradable materials. They are on a mission to **combat global pollution sustainably**, blending expertise in biology, chemistry, and engineering.

ABS has a range of products, technologies, and solutions designed to tackle some of the planet's most pressing pollutants, ensuring a **greener and cleaner future**.

HOW WILL THE R&D BENEFIT HELP THE GROWTH OF THE COMPANY?

The Research and Development (R&D) is **pivotal** to our company's growth trajectory.

With a strong emphasis on science, **our R&D efforts permeate every aspect of our operations**, from product development and design to manufacturing processes. By continually investing in R&D, we not only stay ahead in a competitive market but also drive sustainable growth, enabling us to deliver impactful solutions for the environment.

THE CLAIM PROCESS

The R&D process was **straightforward, seamless, and efficient**, thanks to the support and expertise of our partners at Leyton.

From conceptualisation to implementation, the collaboration was characterised by clarity and effectiveness, simplifying each stage of the journey. Working with **Leyton made the process not only productive but remarkably hassle-free**, allowing us to focus on driving innovation and achieving our environmental goals.

WOULD YOU RECOMMEND LEYTON UK?

Leyton took the hassle out of a very bureaucratic process. They're **efficient** and **knowledgeable** and show genuine interest in helping the client first.

LEONARDO GRAZZINI- ADVANCED BACTERIAL SCIENCE

ABOUT LEYTON
